

# Be the light

I know the world is crazy right now  
I know you're watching towers fall down  
They never belonged to you or the world.

You got to trust your time is to come  
You had to spend too long in the dark  
but that's not your place  
so things 'bout to change.

Now call it in, set your eyes on it and say

Can I be the light?  
Let me be the light that lifts you up  
let me be the song that lifts your heart  
through the night.  
Let me your soul  
Let me be the fire burning high  
Let me set with love ablaze the sky  
and be the light, be the light.

Let me be the light.  
So let me be the light.

I know you see it in everyone else  
Have you forgotten to see it in yourself?  
Forget what they said  
Get out of your head.

Now move your body in endless dance  
Them angel numbers are telling you as much.  
The weight of the world is not for you to take on.

Just do your best, forget the rest and raise your  
voice and say 'I'm blessed'. Now claim it, you're  
the living word. It starts with you to change the  
world.

Get up be the light!  
Get up be the light that lifts you up  
Get up be the song that lifts your heart through  
the night. Get up be your soul.  
Get up be the fire burning high.  
Get up, set with love ablaze the sky  
and be the light, be the light.  
Get up be the light.

All the stories you heard  
All the pain and the hurt  
Does it really apply to you?  
Are you meant just to do  
what everybody is doing  
or make a way so you find the truth?

So call it in, set your eyes on it and say

Get up be the light!  
Get up be the light that lifts you up  
Get up be the song right from the heart  
It's you all that.

Get up be your soul.  
Get up be the fire burning high.  
Get up, set with love ablaze the sky  
and be the light, be the light.  
Get up be the light.  
Come on baby  
Get up be the light.
